MSc BIOTECNOLOGY

| Semester I |
|--|
| Advanced Biological Chemistry |
| Molecular Biology |
| Environmental Biotechnology |
| Cell Biology |
| Exercises in Advanced Biological Chemistry |
| Exercises in Molecular and Cell Biology |
| Exercises in Environmental Biotechnology |
| Semester II |
| Genetic Engineering |
| Immunology |
| Principles of Bacteriology and Virology |
| Plant Biotechnology |
| |

| Exercises in Genetic Engineering | |
|---|--|
| Exercises in Immunology | |
| Exercises in Plant Biotechnology | |
| Exercises in Bacteriology and Virology | |
| | |
| | |
| | |
| | |
| | |
| Semester III | |
| Semester III Animal Biotechnology | |
| | |
| Animal Biotechnology | |
| Animal Biotechnology Bioprocess engineering &Fermentation Technology | |
| Animal Biotechnology Bioprocess engineering &Fermentation Technology Data Base Management and IPR in Biotechnology | |
| Animal Biotechnology Bioprocess engineering &Fermentation Technology Data Base Management and IPR in Biotechnology Advanced Genetics | |

| Exercises in Bioinformatics |
|---|
| Seminars, Term paper writing |
| Scientific Research and Communications |
| Food Technology and Nutrigenomics |
| |
| Semester IV |
| Genomics and Proteomics |
| Biochemical and biophysical techniques |
| Exercises in Biochemical and Biophysical techniques |
| Nano biotechnology |
| Stem Cell Technology and Regenerative Medicines |
| Agricultural Biotechnology |
| Bio-entrepreneurship |
| Project |
| |
