MSc STATISTICS

Ancillary Mathematics	Inference 1
Measure Theory and Probability	Sample Surveys
Distribution Theory	Linear Models and Regression Analysis
Matrix Algebra and Numerical Analysis (Practical)	Inference 1 (Practical)
Distribution Theory (Practical)	Sample Surveys (Practical)
Computer Programming (Practical)	Linear Models and Regression Analysis (Practical)
Inference 2	Multivariate Analysis
Design of Experiments	Econometrics and Economics Statistics

Time Series Analysis	Environmental Studies
Inference 2 (Practical)	-
Design of Experiments (Practical)	-

-

Time Series Analysis (Practical)
